1.3 Product Description:

Forbo Neutral pH Cleaner is a cleaner designed for everyday use to remove routine soil from the floor. Its neutral pH will not harm factory applied or field applied floor finishes.

1.4 Recommended for Use With:

All Forbo Flooring Products

1.5 Physical Characteristics:

Odor	Mild
Color	Colorless
pH	6.5 – 7.5
VOC Content	None
Unit Size	1 quart (0.946 L) / 1 gallon (3.785 L)
Dilution	1 – 2 oz. per gallon
Spread Rate	16 – 32 gallons of cleaner per quart 64 – 128 gallons of cleaner per gallon
Shelf Life	2 years in unopened container
Storage	Keep from Freezing
Disposal	Follow all local regulations

2. APPLICATION RECOMMENDATIONS

Forbo Neutral pH Cleaner should never be used undiluted. Remove all surface debris by dust mopping, sweeping or vacuuming. Dilute Forbo Neutral pH Cleaner at 1 – 2 oz. per gallon of unheated tap water. Apply the cleaning solution to the floor and allow 5 – 10 minutes of dwell time. Scrub the floor with either a 175 RPM floor machine or automatic scrubber using either a 3M Cleaning Pad #5100 or equivalent. For heavier soil loads or to remove adhesive residue, use a 3M Topline Pad #5000 or equivalent, but this pad is NOT to be used regularly in place of the 3M Cleaning Pad #5100. Additional dwell time may be necessary for heavily soiled floors. It is recommended to double scrub heavily soiled floors when using an automatic scrubber. Pick up the cleaning solution with a wet/dry vacuum or an automatic scrubber. Rinse the entire surface with a clean mop using clean, cool water. Pick up the rinse water with a wet/dry vacuum or an automatic scrubber. Allow the floor to dry completely before allowing traffic.

3. ADDITIONAL INFORMATION

See Forbo's Floor Care Guidelines specifically created for each Forbo product for more detailed recommendations when using Forbo Neutral pH Cleaner.
