Prolink Beltfinder
HOW TO INSTALL THE PROLINK APP ON YOUR SMARTPHONE

QR Code Scanners open web apps in different ways. Some of them have an integrated browser, which results in a long way round to add a shortcut-icon to your home screen. Here is how to create a shortcut in three of the most commonly used QR Code Scanners for Android and iOS:

IOS
(Tested on iPhone 4)

ANDROID
(Tested on Samsung Galaxy S2)

I-NIGMA
Our recommendation.

IOS	ANDROID
1. Scan the QR Code	1. Scan the QR Code
2. The App opens in your standard browser	2. The App opens in your standard browser

BARCOO

IOS	ANDROID
1. Scan the QR Code	1. Scan the QR Code
2. The App opens	2. The App opens
3. Tap the symbol ↱	3. Tap your menue button
4. Open in your standard browser	4. Open in your standard browser

SCAN

IOS	ANDROID
1. Scan the QR Code	1. Scan the QR Code
2. Tap the symbol ↱ in your address bar	2. The App opens in your standard browser
3. Open in your standard browser	

If you use the Safari browser, tap ↱ and select "Add to home screen". In other common browsers please follow these three steps to integrate the shortcut-icon in your home screen:

STEP 1 CREATE A BOOKMARK IN YOUR BROWSER

STEP 2 LONG PRESS THE BOOKMARK IN YOUR BOOKMARK MENU

STEP 3 SELECT „ADD SHORTCUT TO HOME"

Now your Prolink Beltfinder App is in your home screen and ready to use!
