

ECONYL®
Made with 100% Regenerated Nylon

Design flexibility

The distinctive and luxurious velvet stripe of Create Space 3 adds sophistication and depth making it suitable for any size of interior flooring scheme. Each of the 15 Create Space 3 colourways features a subtle tonal progression of hues which produces a diffused geometric linear effect. The cut and loop pile construction provides a rich burst of colour and texture, giving an opulent effect.

Create Space 3 agate | Westbond dutch orange

Create Space 3 can be installed in a variety of ways allowing complete design flexibility and truly unique installations (see page 5). Use on its own or in combination with Create Space 1 semi-plain loop, Create Space 2 linear loop, or with Westbond fusion bonded cut pile.

Designing with Create Space

Meeting spaces, walkways and clearly defined breakout areas can all be incorporated into the floor design by combining the various elements of the Create Space collection.

Create Space 3 agate | Westbond douglas pink, jet and vapour

The intrinsic colour connections in the Create Space ranges mean that Create Space 3 can be used with Create Space 1 and 2, or Westbond either as a co-ordinate or as a contrast element to produce truly individual floors.

Mix and match for maximum impact

The design possibilities are enhanced by the ability to use Create Space 3 luxurious cut and loop pile, in conjunction with Create Space 1 semi-plain loop, Create Space 2 linear loop, or with Westbond rich fusion bonded cut pile for added luxury.

Installation methods

Create Space 3 carpet tiles are designed to provide the specifier with maximum flexibility. Different aesthetic effects may be achieved depending on whether the tiles are installed in a broadloom, tessellated, non-directional or half drop configuration.

non-directional

broadloom

tessellated

half drop

Green design

Designed in line with Forbo's Green Design principles, Create Space 3 is manufactured in the United Kingdom using precision tufting technology and an ultrasonic tile cutting process which reduces tile waste by 80% compared to traditional press cutting methods. When Create Space 3 is fitted non-directionally, installation waste is minimised to 2%.

Create Space 3 serpentine

Regenerated ECONYL® yarn

Up to 100% of the yarn in each Create Space 3 colourway is ECONYL® solution dyed polyamide yarn, recycled from post-consumer and post-industrial waste streams, including old carpets and discarded fishing nets.

These waste streams are regenerated into new caprolactam, the building block of polyamide, so that the normal limitations on colour choice and vibrancy imposed when using conventionally recycled yarns, simply do not apply.

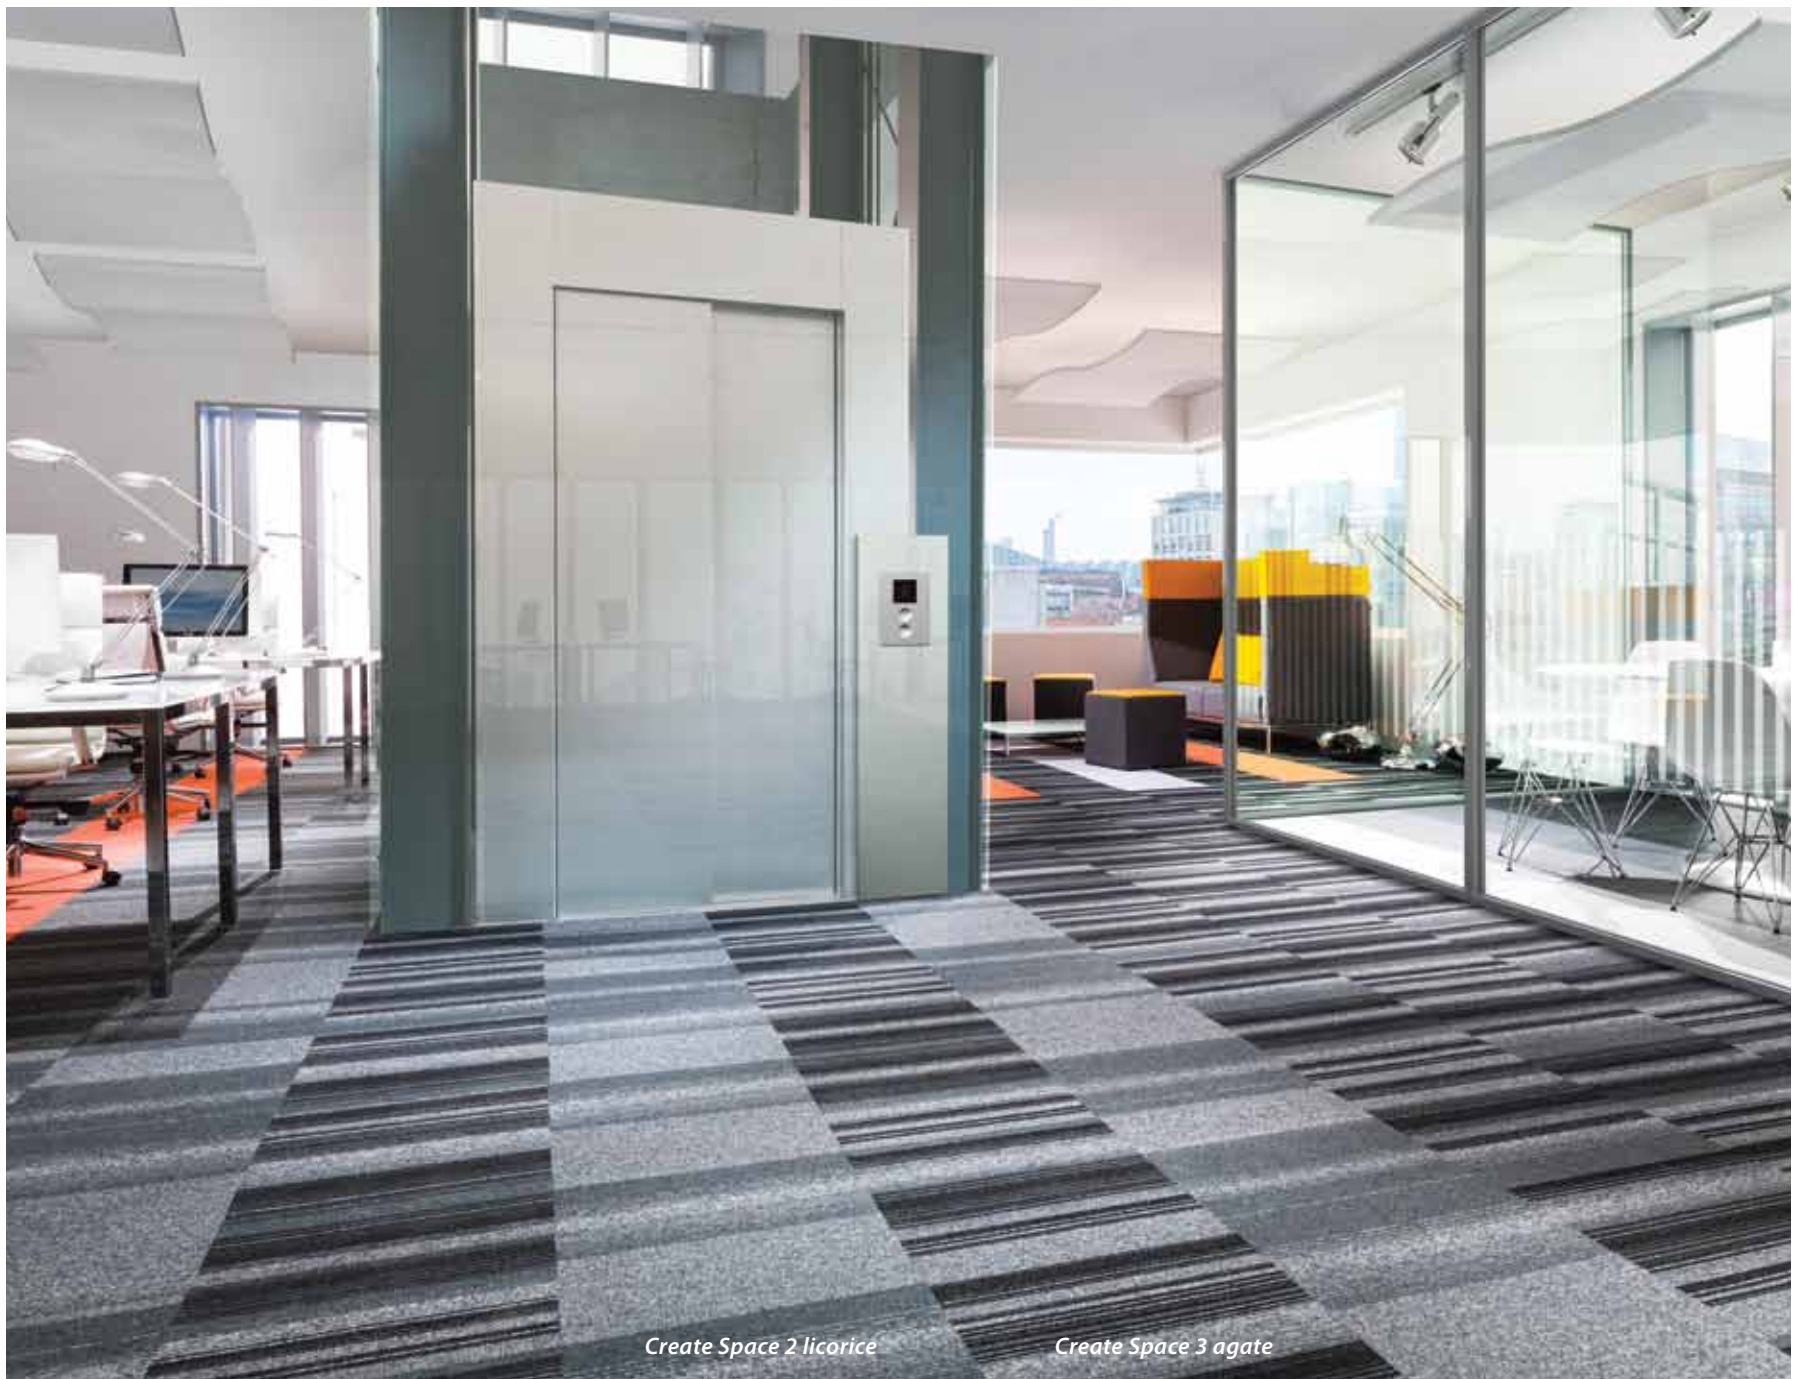

Create Space 3 agate

For full details of the recycled yarn content per colourway please visit forbo-flooring.co.uk/createspace

Create your space

This installation shows all three products in the Create Space range working together as part of a striking floor scheme. Create Space 2 licorice and Create Space 3 agate are used in the main field area, with feature elements realised in Create Space 1 nickel, ashen, feldspar, ebonite and persimmon, Westbond dove and dutch orange.

Forbo Flooring Systems is part of the Forbo Group, a global leader in flooring, bonding and movement systems, and offers a full range of flooring products for both commercial and residential markets. High quality linoleum, vinyl, textile, flocked and entrance flooring products combine functionality, colour and design, offering total flooring solutions for any environment.
