

'Przedszkolna Chatka' Kindergarten

The 'Przedszkolna Chatka' kindergarten is located in the Bydgoszcz Industrial and Technological Park. The modern building consists of five parts connected by a central corridor and has an area of approximately 1,600 m². Three parts of the building are designed for use as kindergarten classrooms with bathrooms. The two remaining parts consist of a kitchen with back rooms, administration space, and a multipurpose room. The corridor features cloakrooms and playrooms. The building has six classrooms for 150 children. Eternal vinyl floor coverings, Tessera carpet tiles and Bulletin Board - a linoleum material for creating notice boards - have been installed in the facility.
