FLOORING SYSTEMS

creating better environments

Safeland PLC

Forbo Flooring Systems has supplied its sophisticated Tessera Alignment carpet tiles to Safeland PLC, London, to complement their new contemporary offices.
London-based Coraff Carpets specified Forbo's Alignment collection to suit the clients objective of a unique and different flooring scheme. The new offices for the property trading and investment company are largely open plan, and so the design had to suit the sizeable area, whilst complementing the modern and sophisticated surroundings.
