

**Agence de l'Eau Rhône Méditerranée Corse Délégation Paca & Corse**

The architects in charge of the Rhône Mediterranean Water Agency project Corsica Delegation Paca - Corsica have called on Forbo Flooring Systems for the choice of flooring. They selected The Flotex product, a high-quality, flocked flooring. It is an easy-to-clean, walkable flooring known for its acoustic properties. The selected "Calgary" décor is marked with lightness and softness for a cloudy flooring.
