

Akademeia High School, Warsaw, Poland

The High School Akademeia is located in Miasteczko Wilanów in Warsaw. The building was designed by the award-winning architectural studio Medusa Group. Inside you will find modern laboratories, spacious didactic rooms, a unique space for artistic activities and creative work, a well-equipped sports hall and inspiring places to work and relax. The school promotes an organic, healthy lifestyle. It has a green rooftop garden as well as an eco-friendly garden nearby, and meals are prepared under supervision of a nutritionist. The school building has qualified for the LEED (Leadership in Energy and Environmental Design) Certificate at the Platinum level. It also won the award of the Polish Green Building Council for the best pre-certification completed environment-friendly building (PLGBC Green Building Award 2017)
