

**Alfrink College**

The Alfrink College in Zoetermeer underwent a complete metamorphosis. Both students and teachers wanted more color, and at the same time a more rustic ambience in the building. The results are impressive. The building has recently been awarded the Gemma Smid Audience Award 2018 for architecture. The fresh blue colors combine beautifully with the striped Marmoleum Striato design.

Project name	Alfrink College
Location	Zoetermeer
Building Contractor	Constructif - voorheen Groenendijk
