

## Almi

Almi's vision is to create opportunities for all viable ideas and companies to be developed. They offer advisory services, loans and venture capital through all phases of the establishment of a business. For their offices in Jönköping, Sweden, stylish and functional Flotex-floors were installed that nicely ties together offices with conference rooms and open spaces. Using Flotex Vision Image, they were also able to create a nice "outside but inside"-feel of pebbled stones in a breakroom that is facing a lake.

Location	Jönköping, Sverige
Commissioned by	Almi
Date of completion	Våren 2018
