

Alvo Integra Center, Śmigiel, Poland

ALVO Integra Center is a training center with a fully equipped operating room created for architects and planners who can meet with manufacturers and design in conditions similar to the real ones. In the center Forbo Colorex was installed - an advanced technical flooring system specifically designed to operating theatres. For the decorative patterns on the floor the Aquajet water cutting technology was used.

Date of completion 2015

Floor designer German Haimerl

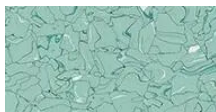

Location Śmigiel, Poland
