

Anšlavs Eglītis - exposition

The exposition in Inciems, created by the design studio H2E, resembles a story created in a black and white visual language. In an area of 50 square metres, the aesthetic characteristics of the Bauhaus School and modernism, which were also close to Anšlavs Eglītis, are highlighted. Forbo's digital print made it possible to display different texts and colours on the Eternal project vinyl flooring.

Location	Inciems, Latvia
Architect	Dizaina birojs H2E
Photographer	Ansis Starks
