

The exposition in Inciems, created by the design studio H2E, resembles a story created in a black and white visual language. In an area of 50 square metres, the aesthetic characteristics of the Bauhaus School and modernism, which were also close to Anšlavs Eglītis, are highlighted. Forbo's digital print made it possible to display different texts and colours on the Eternal project vinyl flooring.

Adrese	Inciems, Latvia
Arhitekts	Dizaina birojs H2E
