

Ausonia offices

Ausonia de Serveis S.A. is a taxation, labour and accounting consultancy office with more than 75 years of experience. The interior design aims to reflect the spirit of the company and its modernity, transparency and confidentiality. Having a quiet office environment was an important requirement when designing the office. The floor covering played an essential role in the design to ensure proper acoustics. Flotex flooring from Forbo was chosen because its excellent acoustic properties and appealing design. Flotex is a unique textile floor that combines strength and durability with the comfort of a carpet and the visual suggestion of concrete. As entrance flooring Forbo Coral has been chosen, which captures up to 95% of walked-in dirt and moisture, prolonging the life of the interior flooring, while also significantly reducing cleaning costs and the risk of slipping.
