

Aussie Tiny Houses – Yaroomba 7.2

This unique house on wheels measure only 7.2m in length, 2.4m wide and 4.3m high! Aussie Tiny Houses, who built this “tiny house on wheels” has over 35 years’ experience in the building and design industry. They specialise in optimising small spaces and designing beautiful, practical and affordable living solutions with a passion for sustainability, making marmoleum modular tiles a natural choice. Made from natural raw materials most of which are harvested from annual crops, marmoleum is a sustainable floorcovering that has a very low carbon footprint and doesn’t contain any plastic or phthalates and is very low emitting! Warm to touch and durable. For further information on this tiny house, visit: <https://aussietinyhouses.com.au/tiny-houses/yaroomba-72>
