

BCM Woonzorg Maarsheerd

BCM is an open and transparent organisation that is always looking for new forms of care and well-being, tailored to the continuous changes in the market. BCM Maarsheerd provides care and support to the elderly with a WLZ indication (indication with accommodation) and apartments are also rented to clients that receive home care from BCM. Drent & Van Dijk restyled the central and public spaces in this care complex in Stadskanaal. From cheerless spaces to an ambiance with hotel-elegance. The light Allura Wood floor fits perfectly in the stylish design. Moreover, not only the residents can enjoy this transformation, the restaurant also has a district function. Hospitality is key.
