

BIS|Econocom

BIS | Econocom is a well-known name in the world of project design and profiles itself as a specialist in the field of atmospheric, functional and contemporary offices. That specialty is reflected in the beautiful modern headquarters in Barendrecht. Nicoline van Egmond, interior designer at BIS | Econocom played an important role in the design of the new office. For example, Nicoline deliberately opted for a combination of Marmoleum Concrete in the earthy stone-like color Orbit and carpet tiles from our Tessera Inline collection based on the desire to stay close to nature and to work with earth tones. A pure appearance requires pure colors and materials. The mixed texture of both floors is practical and ensures that it is less even. The tracks in the Tessera carpet floor accentuate walkways and transitions. By allowing them to run under glass walls, it creates a visual spatiality.

Projekta nosaukums	BIS Econocom
Adrese	Barendrecht
Dizainers	Nicoline van Egmond
Iekļāšana	Kampschreur Projectstofferij

Izmantotie grīdas segumi

Marmoleum 2mm orbit
