

Balma showroom, Łódź, Poland

Showroom BALMA is located in the most representative street in Łódź: Piotrkowska. The salon is arranged in an open-space style and the interior is designed so that natural light freely reaches all corners of the office. The spaciousness of the exhibition encourages the customer to get to know it closely. The post-industrial architecture of the building allowed to arrange a mezzanine, thanks to which it was possible to separate the exhibition space from the office space. Various Forbo flooring solutions have been installed on the floor: Tessera Create Space 1 carpet tiles and Tessera Alignment.
