

Bodega de Garelos

Bodega de Garelos embarked on a transformative journey to create a welcoming and distinctive space. Leveraging the innovative properties of Flotex, the project ensured an environment that is not only easy to clean and maintain but also offers excellent acoustics. This combination makes the venue perfect for enjoying memorable moments in a uniquely designed setting. The customized Flotex Vision played a pivotal role in achieving this vision. By incorporating an "out of the box" design approach, the flooring enhances the aesthetic appeal of the space with its unique curves and waves. This design choice not only complements the color palette but also brings a sense of originality and flair to the overall ambiance. This project stands as a testament to the potential of creative design solutions in transforming ordinary spaces into extraordinary experiences. The bespoke Flotex flooring at Bodega de Garelos not only adds visual interest but also contributes to the comfort and functionality of the space, making it a true standout in its field.
