

Buglo office, Koszalin, Poland

Buglo is a producer of creative playgrounds. Forbo's flooring systems were chosen for the new office in Koszalin: Tesser Layout carpet tiles and Showtime needfelt. The floor coverings were laid on an area of about 600m2 in corridors, office rooms and reception areas. Tessera carpet tiles have been cut into the shape of a hexagon, which in combination with various shades gave the interior a unique character.
