

CHR de Namur

The CHRSM - Meuse site is a general hospital with 397 beds, of a pluralistic nature, which offers a complete range of care and which, through the quality of the reception of the patient, his or her care and the care provided, fully fulfils its mission as an efficient public institution. As an emergency hospital, it is composed of all medical services. 250 doctors and 1,500 staff members work every day for the well-being of the patient.
