

CPAM Montpellier offices

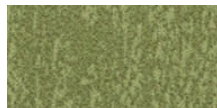

The Caisse Primaire d'Assurance Maladie de l'Hérault in Montpellier chose Forbo Flooring Systems floors for its refurbishment. More specifically, Flotex was installed in the offices, creating a calm environment conducive to concentration. As well as reducing noise, Flotex offers several other advantages, including easy maintenance and optimum technical performance. In all, more than 2,000 m2 of Flotex flooring was installed in the new premises of the Montpellier CPAM.
