

CRYOTERA | Cryotherapy centre

Cryotera, Cryotherapy centre, has chosen Allura decibel the new LVT category with easy to installation for its centre in Troyes. In addition to its high technical performance, it is eco-designed and manufactured in Reims, France, using half the raw materials of a conventional LVT. This is the first range made in France to offer such natural decors, in wood, concrete, cement and mineral tones. This French innovation is the perfect balance between well-being and design.
