

**Ca phe**

Café owners had a fairly clear idea of the atmosphere of the café from the beginning. It was supposed to be pleasant, cozy, with a subtle reference to Vietnamese culture. The essential requirement was "No black-and-white interior in particular" :) Designers wanted the interior to be truly unique and unmistakable. That's why they chose, for example, hand-painted wallpaper with lotus flowers and other elements made to measure - bar, cassette wall paneling. They also wanted to use interesting materials like Forbo Desktop. Light pink hue 4185 powder blends beautifully with wallpaper.

Project name	Cà phê
