

Caasi Boutique

The change rooms saw an opportunity for a feature piece to exist within the store and became the "runway". Accessed through the large pink archway, you feel as though you're entering a pink-filled dream. Featuring cloud-shaped pendants and floor to ceiling velvet curtains, this area creates a memorable user experience for shoppers. The interior immerses you in the full branding experience of Caasi Boutique and leaves you feeling playful, flirty and energetic. – Storyline designs
