

Cafe Cokafe

The Cokafe Cafe is part of a new poly functional building, built inside a historical and protected building in the area of Vitkovice factory in Ostrava city, Czech Republic. Cokafe is a well known brand of coffee bars in Ostrava city. For the new design of the cafe, Forbo's Surestep safety vinyl flooring has been chosen, because of its acoustic, practical and aesthetic qualities. The beige colour fits perfectly in the interior design.
