

Caisse d'Epargne Languedoc Roussillon

The Caisse d'Epargne Languedoc Roussillon has entrusted RF Design with its 2nd office renovation project. A complete plateau of about 900m2 on the Euromedecine site. "Continuing the concept of "Parcours de la région Languedoc Roussillon" realized in 2018, we proposed a territorial concept, built around the identity and values of users." On the floor a combination of Marmoleum flooring and Flotex flocked flooring has been applied. " The Flotex Vision Tangent range has seduced us by its very graphic composition of colored blades accentuating the feeling of direction. The Flotex Vision solution allowed us to customise the existing range with colors calibrated to our visuals."

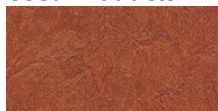

Interior Designer RF Design - Adrien PICHOL

Flooring Contractor RF Design - Adrien PICHOL

Location Languedoc Roussillon, France

Building Contractor Caisse d'Epargne

Used Products
