

## Calderwood Primary School

For the new Calderwood primary school, part of the Calderwood Masterplan development in West Lothian, JM Architects was tasked with creating an open and collaborative space for teachers and students to enjoy for years to come. Thanks to Forbo Flooring Systems' large portfolio of solutions, JM Architects specified a variety of products throughout the school, with Marmoleum and vinyl at the forefront of this new development. The project went on to be the winner of the Forbo Escapes 2021/2022 competition.

Location	Calderwood, West Lothian, UK
