

Candy Castle

Indoor play-ground Candy Castle is located in the recently restored monumental Sint Joseph Church in Amsterdam. The combination of the play attributes and the interior of the restored church is impressive. On the floor Allura Flex "white weathered oak" loose lay tiles have been installed. This wood design is no longer in collection, but when you click on the tabletop below, you will be directed to the new Allura Flex collection.

General contractor	Candy Castle BV
Installation by	Zwiers en Zonen, Amsterdam
