

## Charlton Brown Early Learning Center

Charlton Brown's brand new early learning center located in Spring Hill, specialises in long day child care, which is in high demand. Forbo Sphera homogeneous vinyl flooring was chosen because of its incredible durability and stain resistance, which makes it a great flooring choice for early learning centers where accidents do happen. Additionally, Sphera is produced 100% phthalate free contributing to a healthy indoor environment. The long-term durability and ease of maintenance with infection control were also key factors in the selection of Sphera. It has been proven to inhibit the growth of MRSA and other antibiotic-resistant bacteria. Silently protecting staff and young children using flooring engineered for health.
