

Children Oncology Rooms Gregorio Marañón Hospital

The children oncology rooms in the Gregorio Marañón Hospital in Madrid have been transformed into a "lunar station" to make the stay in the hospital of children with cancer not so hard. The rooms were inaugurated by astronaut Pedro Duque.

In the 2 rooms that make up the "Estación Lunar" project, a total of 32 m2 of Eternal Digital Printed flooring has been installed. With Eternal digital print you can create your own unique floor design.
