

Club Natació Atlètic-Barceloneta (CNAB)

The Club Natació Atlètic-Barceloneta (CNAB) is a non-profit sports entity formed from the merger of Club Natació Atlètic, founded in 1913, and Barceloneta Amateur Club, founded in 1929. It stands as one of the most popular and frequented clubs in Barcelona, offering a rich history and a vibrant community for sports enthusiasts. In redesigning the reception area, it was crucial to select a flooring solution that combined aesthetics with durability. A wood-design product was sought to convey warmth and welcome visitors, while also withstanding the heavy foot traffic the club experiences daily. After careful consideration, Allura Dryback flooring was chosen for its exceptional durability and realistic, warm design. Allura Dryback not only enhances the visual appeal of the reception area but also ensures long-lasting performance. Its robust nature and ease of maintenance make it ideal for high-traffic environments, reflecting the club's commitment to quality and excellence.
