

Contemporary nuway grid installation

With a tight handover date looming for their client, Syncros Entrance Matting Systems contacted Forbo for a quick supply of Nuway Grid for their latest project – and our team did not fail to deliver. An efficient response allowed the installation team to fit the entrance flooring system on time and to a high standard and the result was impressive! Nuway Grid is the perfect solution for heavy traffic entrance spaces where aesthetics is important. Grid is also simple to shape on site and when installed, it will defend against moisture and finer dirt particles.
