

Coop Norrbotten Arena

Coop Norrbotten Arena is Luleå Hockeys home arena, but it also hosts several other cultural events, like concerts and theatrical shows. 10 years after the renovation of the building the arena restaurants have been refurbished as well and now have a nice bistro feel to them. In one of the two restaurants they have installed the Flotex by Starck Artist-design in the terracotta colour. The flooring has acoustic properties and contributes to a calm and comfortable atmosphere while also being slip resistant and easy to clean. Flotex Planks in three different colours was used for the other restaurant.

Flooring contractor Bra Golv i Norrbotten AB

Date of completion September 2019

Interior designer Lundbäcks Inredningar

Location Luleå, Sweden

Photographer Robert Nyholm

Project name Coop Norrbotten Arena
