

Countess of Chester Hospital, Haematology & Oncology Suite and Education & Training Centre

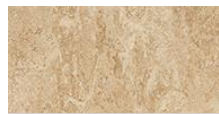

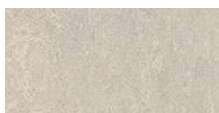

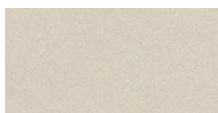

Patients and staff at the Countess of Chester Hospital are enjoying a soothing and welcoming ambience thanks to Forbo Flooring Systems' Marmoleum®. The Haematology and Oncology Suite wanted to create an environment that reflected warmth and calm by using natural colours to engender a feeling of well-being.

The installation at the Training & Education Centre was a new build project, which also included a refurbishment of the original Postgraduate Medical Centre (PGMC).
