

DPG Media

It's always a pleasure to work with Forbo Flooring. Thanks to Forbo's many years of experience, they always manage to propose the right flooring with a good price/quality ratio, regardless of the project or application. For this project, we looked for maintenance-friendly floors that are easy to clean - an important consideration in a working environment. That is why we chose Tessera carpet tiles and Allura Flex. The resulting floors accord perfectly with the look and feel that DPG aspires to, while the good acoustics and luxurious textures are a welcome extra.
