

De Refter - Radboud Universiteit

De Refter, the restaurant of Radboud University, has been updated. With 850 seats and more than 1600 visitors every day who eat or drink something here, also called Nijmegen's largest restaurant. Six food counters, each with a different theme, atmosphere and range. With long benches, wooden tables, lots of greenery and authentic Eternal floors in a wood look or robust metal look, the new Refter is more a living room than a canteen. A place to meet, study, relax and eat tasty and healthy food.
