

Deliveroo

Deliveroo's head office in London is reflective of the Deliveroo branding, where the environment is diverse and exciting, and supports agile working and collaboration. Using Marmoleum Fresco, a bespoke cycle track was designed and created, which acts as a walkway inside the office connecting the various meeting rooms. Coming off the cycle track, Flotex Vision in Grass recreates the grass for picnic areas. Several colourways from the Tessera Layout Collection were also installed inside the meeting rooms in a series of vibrant colourways.
