

Dental practise Dr. Baartz / Dr. Thiemann

The group dental practice Dr. Baartz & Dr. Thiemann is located in Aschenberg, Herbern, Germany. The dental clinic has existed for over 30 years. Eternal Material flooring fits very well in this modern practice. Eternal floor coverings have a modern selection of unconventional designs, including unusual textile effects, brushed metal and concrete textures with a subtle satiny look, authentic slate structures and timeless granite all over designs.
