

## Djurönäset conference center

Djurönäset is one of Sweden's largest SPA and conference hotels, located on Djurö in the Stockholm archipelago. They have several detached conference houses, of which House 7 is the current renovation project. For this project they wished for a welcoming, homely and contemporary environment. They chose to install Forbo Tessera Cloudscape in a few, subtle colors. More information about Djurönäset [here](#).

Projekta nosaukums	Djurönäset
