

ENP Office

ENP (E NET PRODUCTION) is an IT company based in Katowice, Poland. A large and comfortable relaxation area was created in the new head office. Flotex custom flooring was chosen for the floor. High definition digital print made it possible to create a floor with realistic sand patterns that evoke the beach and holiday feeling. With a smooth, velour like surface that looks and feels like a carpet, Flotex is the perfect textile substrate for vibrant designs and true to life visuals which can be produced in high level photographic resolution. Digital print offers an infinite number of design options ranging from abstracts with intricate colour spectrums to realistic images of natural materials like sand, grass and water.
