

## Estonian Museum of Natural History

The Estonian Museum of Natural History created a new permanent exhibition called "Estonian Bogs" to introduce different types of bogs. The digitally printed Eternal floor creates a visual experience of walking on the bog. Different types of bogs mesh seamlessly into one another on the floor and intensify the experience for the visitors.

Location	Tallinn, Estonia
Photography	Saara Mägin
Floor Design	Lennart Lennuk (photo) & Jüri Lõun (blending)
