

Feyenoord - Trainingscomplex 1908

Multifunctional training complex 1908 fully equipped for the first team of the Rotterdam football club. Offices, an auditorium, a restaurant, relaxation rooms and changing facilities with various wellness facilities. A calming but at the same time a challenging environment that stimulates concentration and focus. For example, a lot of use was made of light colors and natural materials, which is why the architect chose our durable Marmoleum concrete.
