

Food court at Alegro Montijo shopping centre

Montijo is one of the largest municipalities in the south of the Tagus region in Portugal. In this area Alegro Montijo is a popular shopping mall that offers local and global retailers a movie theatre and a large food court. Inspired by its deeply rural past, Alegro Montijo based its design on a typical regional farm. New Forbo floors were part of the redecoration of the food court on the top floor. Forbo's Allura and Eternal floors were chosen to provide the area with a modern, refreshed look. The special Hungarian Point format from the Allura LVT collection provides the desired cosy and homely appearance. Together with the calm cement colour from the Eternal project vinyl collection, a comfortable floor is created that can withstand the many daily visitors of the food court. The floor keeps looking good day after day.
