

Franz Faust Linoleum

The Franz Faust company concentrates exclusively on the production of linoleum furniture products, especially linoleum coated table tops and notice boards. The elastic coating of our Furniture Linoleum makes a perfect surface for home and work environments such as shop or reception counters, cupboards, interior doors, chairs, dividing walls and wall panelling. The blue color "cornflower" that is visible in several images is no longer in collection. The "4181 midnight blue" is a good alternative.
