

Furniture Linoleum Küche

In close collaboration with Küffer AG, a carpentry firm in Pieterlen, this private kitchen was designed and built with Furniture Linoleum and oak wood -finish surfaces and a stainless steel countertop. The three kitchen elements were carefully integrated into the existing premises of the 1930s building. During the planning stage, attention was paid to ensuring smooth workflows without losing sight of the discreet and harmonious overall appearance. Furniture Linoleum is a durable, elegant surface solution for kitchens, with a sophisticated matte finish that is resistant to fingerprints and easy to clean. Perfect for cabinets, drawers, and shelves. The material feels warm and natural to the touch and is resistant to everyday wear and tear.
