

Golden Tulip

Almost 'home' in restyled Golden Tulip Hotel The already beautiful Golden Tulip four-star hotel on the beach of Noordwijk with luxurious Spa has become even more beautiful after the renovation of all rooms by Tiemwerk Styling & Interior Architecture. From executive room to standard bedroom, in all 82 rooms the office chose a homely, warm style that makes you feel almost at home instead of in a hotel. Lots of wood, cupboards with special trinkets, colour, a touch of Mediterranean influence and all that in a sea of light. On the floor is Flotex, which combines the advantages of a pleasantly soft floor with the ease of maintenance of a hard floor. In this way, Flotex can be easily cleaned both wet and dry. The business suites of Golden Tulip Leiden and the Deluxe Apartments of Golden Tulip Zoetermeer have also been completely restyled by Eddy Tiemens/Tiemwerk. In Leiden, Allura has been chosen for its convenience and appearance. A beautiful indistinguishable herringbone floor in the colour Waxed Oak. In Zoetermeer a modern look has been created with Allura PVC strips in the size 120x20 cm and the colour Black Rustic Oak.
