

Gran Hotel Luna de Granada

Located in the heart of Granada, the iconic Gran Hotel Luna de Granada has embarked on a significant renovation to give the hotel a fresh, modern, and elegant look. As part of this transformation, a key design element has been the incorporation of Flotex Colour tiles throughout the corridors and passageways. The combination of anthracite tones and refined finishes adds a special touch to these high-traffic areas, offering both aesthetic appeal and practical benefits. Flotex Colour provides outstanding stain resistance and easy maintenance, making it ideal for these busy spaces. Additionally, its acoustic impact absorption ensures a quieter, more peaceful environment for guests. The Gran Hotel Luna is committed to modernizing its image floor by floor, with more beautifully renovated spaces soon to be unveiled, promising an elevated guest experience.
