

GreenStar Hotel Vaasa

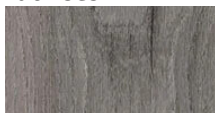

GreenStar is the first carbon-neutral hotel chain in Finland. GreenStar Hotel Vaasa was opened in January 2020 and is the 4th hotel of the sustainable chain. GreenStar hotels are environmentally friendly by design: through saving energy and using resources efficiently, the hotel chain wants to protect nature as well as save money. GreenStar Hotel Vaasa is located in the city center, just a short walk away from the Vaasa market square. The hotel has 98 rooms and it operates with green and emission-free electricity and district heating. All the beds, paints and detergents used as well as the cleaning services have the Nordic Swan Ecolabel. The timber used in the hotel is all Finnish and the upholstery fabrics are recycled. Forbo's Tessera Cloudscape carpet tiles and Allura Flex loose lay luxury vinyl tiles have been installed on the floors.
