

## Gérardmer and Hautes Vosges Tourist Office

The Gérardmer and Hautes Vosges Tourist Office got a makeover in autumn 2024 to offer visitors a modern, warm welcome that is perfectly suited to their discoveries in the Vosges. The flooring in the reception area and the screening room has been covered with Flotex, combining aesthetics and comfort. Upon entering, visitors are invited to immerse themselves in the heart of the region thanks to a map of the Hautes Vosges, specially created on Flotex by artist Françoise Ayme Martin, which brings a unique and distinctive touch to the place. In addition to its customised design, Flotex stands out for its technical performance: its acoustic properties ensure optimal absorption of footfall noise, guaranteeing a peaceful atmosphere, while its ease of maintenance makes it a practical and sustainable choice for the site's teams.
