

HILTI Amsterdam

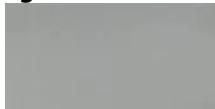

The renovation of Hilti Amsterdam into a flagship store has been more than successful. Hilti is your partner in construction; the company supplies and produces advanced machines, software and services for professionals in the construction sector. With the beautiful design, colors and appearance of our dimensionally stable Allura luxury vinyl tiles, the wish to create more openness in the store has been successfully fulfilled. For the office environment Hilti chose for the flexibility and comfort of Tessera Cloudscape carpet tiles. And not only the Hilti flagship store in Amsterdam, also the stores in Den Bosch and Eindhoven have chosen this beautiful combination of Allura LVT with Tessera carpet tiles.
